What are smart suggestions?

Sara - 2023-08-25 - Get to know your robot

Smart suggestions allow the app to suggest an ideal cleaning schedule with cleaning times and routines that are based on how you have been using the robot. For example: if you typically clean specific rooms on a certain day of the week, the robot will suggest creating a scheduled task. It will also help you to keep your home nice and clean, especially if you tend to just forget to clean a room or area for a week.
