What are smart suggestions?

Sara - 2023-08-25 - [Get to know your robot](#)

Smart suggestions allow the app to suggest an ideal cleaning schedule with cleaning times and routines that are based on how you have been using the robot. For example: if you typically clean specific rooms on a certain day of the week, the robot will suggest creating a scheduled task. It will also help you to keep your home nice and clean, especially if you tend to just forget to clean a room or area for a week.
